EDUCATION

- **Delhi University** — North-Delhi, India
  Bachelor of Arts; CGPA: 85.6 — *May 2019 - June 2022*

SKILLS SUMMARY

- **Languages**: JavaScript
- **Frameworks/Libraries**: React.js, Node.js, Tailwind CSS, Sanity, Bootstrap, Html, CSS
- **Technologies**: Git/GitHub, Redux
- **Basic Knowledge:** API integration, Responsive design

EXPERIENCE(SELF-LEARNING EXPERIENCE)

- **(Self-Learning)** — Delhi, India
  Frontend Developer — *Jan 2024 - Ongoing*
  - Built and deployed multiple personal projects to practice and apply frontend development skills using **React.js**, **Tailwind CSS**, and **JavaScript**.
  - Created a **To-Do App** using React with **Redux** for global state management
  - Built a **Responsive Landing Page** with clean UI and animations using HTML, CSS, and JS
  - Built a personal **portfolio site** using React and Tailwind
  - Applied **state management** with useState, useEffect, and Redux
  - Created a **multi-page React app** with routing and custom components
  - Used **Git & GitHub** for version control and **Netlify** for hosting live projects

PROJECTS

- **Hmaracarts** — India
  React JS and Frontend Developer — *April 2025 - June 2025*
  - **Developed a fully responsive** and modern **e-commerce** website using **HTML, CSS, JavaScript**, and **React.js**. The site includes product listings, a product details page, a shopping cart UI, and basic navigation.
  - Implemented clean **UI design** with **Tailwind CSS** for responsiveness.
  - Demonstrated frontend skills in routing using **React Router DOM.**
  - **Static data** stored in mock **JSON format** (no backend integration).
  - Used **Redux** for global state management of cart items and total price.
  - Implemented a **shopping cart** with add/remove/update item feature.

- **Tylt** — India
  Frontend Devloper — *March 2024 - April 2024*
  - **Project Description**: Worked on building the **frontend user interface** for a modern web application. Focused on clean, responsive design and seamless user experience using React-based technologies.
  - **Key Contributions**: Developed UI components using **React.js**, **Tailwind CSS.** Built interactive and reusable components following modern frontend practices. Focused on **responsive layout**, accessibility, and browser compatibility.
  - **Tech Stack**:**, Tailwind, Node.js, Redux, Google Maps API, JavaScript.**

- **Cadillac** — India
  Exposure: Frontend Developer — *March 2025*
  - Worked on the frontend of a web application focused on discussion and user interactions. The goal was to create clean UI components that integrate s moothly with a backend API architecture. Created responsive pages for user login, comments, likes, and discussions. **React.js, Tailwind CSS, React Router DOM, Axios, Git, GitHub**

About Me

- I'm a passionate **frontend developer** eager to start my career. I've learned by building real projects, practicing consistently, and following online tutorials. I'm looking for a company where I can continue learning, work in a team, and grow as a developer.
